

Bob Gray

Bob Gray is the Operations Manager for Kinder Morgan overseeing their Florida terminaling and PHMSA regulated pipeline operations between Tampa and Orlando. Bob also oversees the operations of the co-owned central manifold in the Tampa port and sits on that governance board. Before coming to Kinder Morgan Bob was with Sunoco / Energy Transfer for 32 years, the most recent positions Bob held with Energy Transfer was Senior Manager of Northeast Terminal operations and Director of Northeast Natural gas operations. Bob is based out of their Tampa office. Bob has a Bachelor of Science degree in Environmental Engineering from Columbia Southern University.

Kinder Morgan is one of the largest energy infrastructure companies in North America. They own an interest in or operate approximately 84,000 miles of pipelines and 157 terminals. Kinder Morgan pipelines transport natural gas, refined petroleum products, crude oil, condensate, CO<sub>2</sub> and other products, and our terminals transload and store liquid commodities including petroleum products, ethanol and chemicals, and bulk products, including petroleum coke, metals and ores
