

Andy Morecraft, PE is a vice president and strategic account manager for AECOM in the Tampa, Florida office. Andy has been with AECOM and predecessor firms for over 35 years and has held progressively senior leadership positions primarily focused on pipeline and oil and gas clients. Andy is responsible for managing large pipeline accounts with a focus on the southeast region. His areas of expertise include site civil and pipeline engineering, pipeline permitting, and hazardous waste assessment/remediation.

Andy received a bachelor's degree in Civil Engineering from the University of Delaware and a Master of Engineering from Penn State. He is a licensed professional engineer (PE) in Florida and other southeast states. He also represents AECOM as a board member for the INGAA Foundation.

AECOM (www.aecom.com) is the world's premier, fully integrated infrastructure and support services firm. With nearly 90,000 employees, we design, build, finance, and operate infrastructure assets across a broad range of markets including midstream and oil and gas. AECOM provides high-quality, cost-effective compliance, environmental, permitting, design, and engineering services to many industry leaders, typically as a preferred contractor.

In Florida, AECOM has approximately 900 employees in 10 offices. Primary offices are located in Tampa, Orlando, Miami, and Tallahassee.
